

1. Loosen Allen Screws and slide graphic into top piece
(Allen Wrench is located underneath stand).
Tighten screws - do not overtighten .

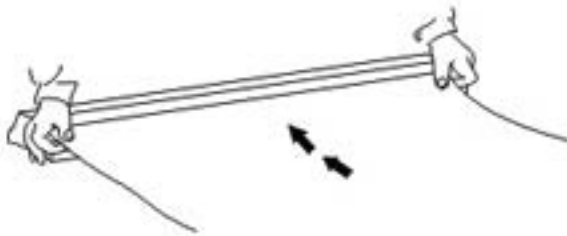

2. Turn stand upside down on table.
Remove protective strip from adhesive and carefully
attach bottom of graphic.

3. Holding the graphic , carefully remove the pin on side of
stand. NOTE! THE ROLLER IS NOW ACTIVATED .

4. Carefully guide graphic into the stand.

Changing the Banner Graphic
Remove the pin from underneath the banner stand. Pull the graphic out as far as possible and insert pin into the side of banner stand. The graphic may need to retract a couple of inches in order to insert pin. Once pin is in place the retracting mechanism is locked. Remove the graphic and follow steps 1-4 to install the new graphic.
